

LIFE

*Life is like an ice-cream,
Everyone has only that dream,
All enjoy ice-cream before melting;
That is the way of life spending.*

*Spending one's life is big knack,
You should go ahead not to back,
Every moment rises with the end;
Deliberating that life should be spent.*

*Sometimes life seems a back-up,
But it is the starting of new take-up,
Don't be more conscious about that,
As we all know that universal fact.*

*All the living beings have their life,
Don't cut anyone's life with knife,
Life of butterfly is fleeting one,
But don't think that is little cone.*

*Spend whole life with gratification,
That will surely lead to your destination,
Life is one of the serious games,
You should grow up with the fame.*
